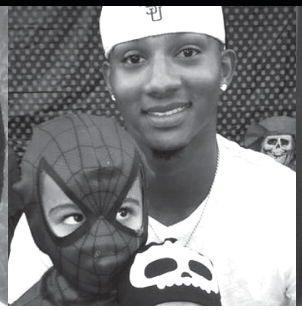
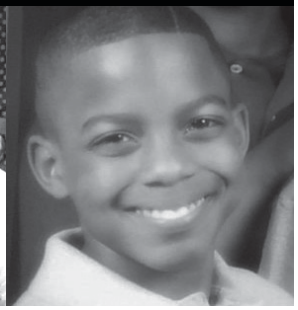
A CALL TO THE WHITE COMMUNITY TO STAND IN SOLIDARITY WITH BLACK LIBERATION!

UHURU SOLIDARITY MOVEMENT

WHITE REPARATIONS TO AFRICAN PEOPLE





I pledge to take a stand in solidarity with the black community's struggle for social justice, economic development and self-determination.

I recognize there are two Americas, two realities. For us, white people, we experience a completely different reality from the African community in this country and that all white people benefit from the oppression of African people inside the U.S., through police murder such as the brutal drowning of Dominique Battle, Laniya Miller and Ashaunti Butler, mass incarceration, gentrification and economic strangulation.

I refuse to be complicit, an accomplice and a voluntary beneficiary of stolen resources of Africa and African people anymore.

I want to take responsibility for inheriting a system built on slavery of African people and the genocide against the Indigenous people and theft of their land.

I pledge to pay reparations to African people, for I recognize reparations is the basis of true solidarity and unity.
